I can’t have photos of me posted on social media due to my company’s policy. Will this be an issue?

We do have members who cannot have their photos on social media for various reasons including religion too, we do however need an updated photo weekly for our records and to track your progress. These photos will only be seen by your Coach and our Photo Coordinators, and will *never* be posted online.

If you don’t even want to do that then that’s of course your prerogative but if we can’t see you, we can’t help you if we need to change anything.
